

We have been striving since April to be able to employ two full-time staff to work with our trustees and other volunteers to build a firm foundation for BCR and develop the services we can provide or host at Middle Street Resource Centre. We are now delighted to be able to announce that we have appointed Robert Ashford as our manager. Robert has been involved with The Centre since 2002 and we regard him as ideally equipped by qualifications and experience to take us forward.

Robert will take up his duties in the middle of August, and meanwhile we will be seeking a Development Officer to work alongside him as from September.
